Welcome to the 20th Millennium Futurity!

So many things have changed, while many things have stayed the same. We've mourned the loss of founders, partners, friends, and yet, we are happy to celebrate and welcome our new partners and participants. If you've been here before, you know that the Millennium Futurity is anything but ordinary, and we welcome you back!

It is my fervent wish that as we come together, we continue to enjoy the passion of this magnificent breed of cattle and the common ground we share.

Good luck to all participants and thank you for being part of this historical event!

Sales Comments: OCV'd. Here is a gorgeous heifer out of one of our best Fifty-Fifty BCB daughters. She is made beautifully; smooth, tall, rounded barrel, long feminine neck and balanced. Her grand dam is Rutledge's Miss Dixie, who has continuously produced top-notch cattle in our program. Justify, her sire, has a super strong line of cows in his pedigree. We don't like to let these genetics go very often. Just Bell will definitely be a good addition to anyone's program, we're confident of that! See more at www.bolenlonghorns.com

Sales Comments: OCV'd. There are times when I'm checking the pedigrees of those we've consigned and think, "I need to study this one more" and this is one of those. This young heifer is out of a 'money maker'. When you look at the production of her dam and sire you'll see what I'm talking about. Follow the tips on this heifer's horns and you'll see where they're going. She'll have a beautiful set of horns by maturity.

NOTES:

What is the Millennium Futurity?

Ben Gravett, of Catlett, Virginia, and his then ranch manager Bill Davidson, began planning for the Millennium Futurity in 1999. The idea of a Futurity itself was not that new. In fact, the idea came from the Gravetts' long background with equestrian organizations where such futurities have been held for years.

In 2000, the first Millennium Futurity show took place in Culpeper, Virginia. That year the prize money totaled \$10,000 with only 4 classes. G&G Longhorn calves were the first animals to be eligible for the show. The event really took hold in the next couple of years. The prize money increased to over \$35,000 in 2004, the number of partners jumped to 27, the number of show classes increased, and the sale moved to Waxahachie, Texas to accommodate the growth. All of this after only a few short years!

The main goal of the Millennium Futurity is to promote the Texas Longhorn by displaying "animals of value" and to have some fun in the process. The Futurity allows people to show off their best animals and have a chance to win money and prizes. It also affords everyone an opportunity to see what other breeders are producing.

Many people are still unsure of exactly how the Millennium Futurity works. Here is a brief outline of the Millennium Futurity as explained by Bill Davidson:

Any animal to be shown or sold at the Millennium Futurity must first meet the eligibility requirements. In order to be eligible, the animal must be registered with the Texas Longhorn Breeders Association of America (TLBAA) or the International Texas Longhorn Association (ITLA), and must have been owned by a Millennium Futurity partner since the date that partner joined. In addition, any offspring that an animal has after the time it becomes Futurity eligible is considered eligible. This allows people who are not partners in the Futurity to participate in the show once they've purchased an animal that is already eligible.

The TLBAA or ILTA office places a "Millennium Futurity" stamp on the registration certificate of eligible animals. This should eliminate questions about eligibility. Check the registration certificates of your longhorns to see if there is a "Millennium Futurity" stamp on it. If there is, that animal (and/or its progeny) is eligible to compete. (As long as they are within the age restrictions. Review the official entry form for Class designations.)
